

Can Dinlenmiş

Architect | Senior Architectural Visualizer

Istanbul, Türkiye

hello@candinlenmis.com · candinlenmis.com

Architect and architectural visualizer working across architecture and visual production since 2007. My practice brings together architectural understanding, CGI production, photography and the experience of building and running independent creative businesses.

I work from drawings and models through composition, lighting, materials and final imagery, with direct responsibility for client communication and delivery. A photographic background informs my visual decisions; AI-assisted image and video tools extend my established 3D workflow.

Remote worldwide · On-site / hybrid in Türkiye

EXPERTISE IN PRACTICE

Architectural judgment

Reading design intent and spatial relationships, then making considered decisions about camera, light and materials.

Production ownership

Taking work from the initial brief through development, feedback and final delivery, in direct communication with clients.

Studio & business experience

Bringing the practical perspective of co-founding a visualization studio and developing a physical design-object brand.

An evolving visual practice

Connecting architectural photography and CGI with current AI-assisted image and video workflows.

CURRENT PRACTICE

2019 – Present

Independent practice

Architectural Visualizer

Independent architectural visualization under my own name, developing imagery from architectural drawings and models to final presentation.

- Cameras, composition, materials, lighting, rendering and post-production.
- Direct client collaboration through briefing, visual development, feedback and delivery.
- AI-assisted tools integrated into image development and video exploration.

Professional experience

Studio practice, product design, architectural photography and architecture.

2026 – Present

MONOSOLID

Founder / Design & Production

A design-object brand exploring architecture, cities, landscapes and sculptural form through physical objects.

- Digital design, high-resolution 3D printing and hand finishing.
- Product development and presentation, connecting visual practice with physical production.

monosolid.com

2012 – 2019

Depikt

Architectural Photographer

Architectural and interior photography in collaboration with Ege Kanar.

- Cultural venues, cafés, bookstores and retail interiors.
 - Spatial composition, light and materiality used to communicate the character of built environments.
-

2009 – 2019

Prospektif

Co-founder / Architectural Visualizer

Co-founded and operated an architectural visualization studio, combining hands-on image production with studio and client responsibilities.

- Translated architectural briefs into finished visual presentations.
 - Developed imagery through modeling, lighting, materials, rendering and post-production.
 - Worked with architects and clients throughout production and delivery.
-

2007 – 2009

MARs Architects

Architect

Professional architectural practice preceding the establishment of Prospektif.

Skills & background

Production tools, selected collaborations and education.

CORE EXPERTISE

CGI & visualization

3ds Max · Corona Renderer · Photoshop

Composition, lighting, materials, rendering and post-production.

AI-assisted production

Image & video workflows

Concept exploration, image development, enhancement and motion.

Architectural photography

Space · Light · Materiality

Architectural and interior photography, spatial framing and visual storytelling.

Project & studio practice

Brief · Development · Delivery

Client communication, visual decisions, revision management and independent practice.

SELECTED COLLABORATIONS

Yekpare

Architectural projection mapping

3D modeling contribution, credited alongside Gökhan Uzun.

Depo: Life in Mental Hospitals

Documentary

Collaborative documentary work with Ege Kanar, including camera and editing.

ÇİN – Cevdet Ereğ

Project team · Venice Biennale, 2017

Project team member for ÇİN, Cevdet Ereğ's architecture and sound installation at the Pavilion of Turkey.

EDUCATION & LANGUAGES

Istanbul Technical University

Architecture · 2001–2005

Turkish

Native

Kadıköy Anadolu Lisesi

Secondary education

English

Full professional proficiency
